Red Hat India recognizes 12 public holidays each calendar year. When gazetted holidays (e.g. Republic Day, Independence Day and Gandhi Jayanti) fall on a Saturday or Sunday, they are still shown in the above schedule and in **Workday**, so that associates who may be required to work on national holidays that fall on a weekend are compensated appropriately.

Please note that this is a list of country specific public holidays - for detailed overview of how public holiday relates to your working hours and for applying for your PTO, consult Workday (or other local tool where not applicable).
